DETAILED ACTION

1. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or make obvious the claimed apparatus or method of increasing the firing rate of a semi-automatic firearm. Specifically, the prior art fails to disclose a firearm having a trigger beneath a firing plate, a safety sear and a trigger sear, and means (either a separator member attached to a trigger clip, or a foot member on the bottom of the safety sear) positioned between the bottom of the safety sear and the firing plate to rotate the safety sear hammer notch away from the trigger sear hammer notch such that an increased firing, i.e. a double fire, is achieved upon pulling and releasing the trigger.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1-19 are allowed.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Akins, Morin, Troncoso (4,803,910), Troncoso (4,685,379), Teel, and Godar are cited as disclosing firing systems and means of increasing the firing rates of semi-automatic weapons.
